出版者:Dover Pubns

出版时间:2007-5

装帧:Pap

isbn:9780486457758

Combining art and science, this indispensable reference focuses on the skeleton's

impact on the external form and the attachments of the muscular system. Over 70 accurate illustrations —standing and in motion — cover everything from the neck, head, trunk, limbs, hand, and foot to details of the face.
