"This major work represents the culmination of studies, extending over some twenty-five years; beginning with the study of "authoritarianism" and dogmatism, the investigations have led into generic problems of the organization and change of

attitudes, beliefs, and values" (Williams and Rokeach, 1974).

Williams, R. M. and Rokeach, M. (1974) 'The Nature of Human Values.' , Political Science Quarterly, 89(2), doi: 10.2307/2149267

作者介绍:

Milton Rokeach (born in Hrubieszów as Mendel Rokicz, December 27, 1918 – October 25, 1988) was a Polish-American social psychologist. He taught at Michigan State University, the University of Western Ontario, Washington State University, and the University of Southern California. A Review of General Psychology survey, published in 2002, ranked Rokeach as the 85th most cited psychologist of the 20th century.--From Wiki Pedia

目录: PART ONE Human Values

1. THE NATURE OF HUMAN VALUES AND VALUE SYSTEMS

The nature of values

The nature of value systems

Functions of values and values systems

Values distinguished from other concepts

Antecedents and consequences of values and values systems

Toward a classification of human values

Summary

2. THE MEASUREMENT OF VALUES AND VALUE SYSTEMS

The value survey

Value measures

Order effects

Social desirability

The structure of values

Values as indicators of needs

The meaning of values

Concluding comments on the measurement of values

PART TWO Values in American Society

3. VALUES AS SOCIAL INDICATORS OF THE QUALITY OF LIFE IN AMERICA

Values of American men and women

Social class values: Income and education

Values and race

Age differences in values

Religious Values

Political Values

Some cross-cultural comparisons

Concluding remarks

4. VALUES AND ATTITUDES

Civil right for black and poor Americans

Student protest

International affairs

Religion

Personality

Inconsequential attitudes

Discussion

5. VALUES AND BEHAVIOR

Civil rights

Religion  
Politics  
The Vietnam war  
Honest and dishonest behavior  
Interpersonal conflict  
Behavior in the counseling situation  
Academic pursuits  
Life style

Occupational roles and choices  
Discussion

### PART THREE Values and Politics

#### 6. A TWO-VALUE MODEL OF POLITICAL IDEOLOGY

Procedure

Terminal value differences among the four ideologies  
Instrumental value differences among the four ideologies

A blind replication

Additional evidence for the two-value model

Discussion

Some alternative interpretations

Concluding comment

#### 7. SOME IMPLICATIONS OF THE TWO-VALUE MODEL OF POLITICS

Equality-Freedom orientations as ideological predispositions

A law of political activism

PART FOUR Long-and Short-term Change in Values, Attitudes, and Behavior

#### 8 A THEORY OF COGNITIVE AND BEHAVIORAL CHANGE

A matrix of possible contradictions within the total belief system

The nature of cognitive inconsistency

Self-dissatisfaction as a determinant of change

Determinants of self-dissatisfaction

Modes of reducing self-dissatisfaction

Major differences between the present theory and other balance theories

#### 9 PROCEDURES FOR INDUCING AND ASSESSING LONG-TERM CHANGE

General procedure

The three experiments

The subjects

The measurements

Pretest, treatment, and posttest procedures

Postexperimental interviews

Debriefing and feedback procedures

#### 10. LONG-TERM AND ATTITUDE CHANGE

Pretest comparisons of experimental and control groups

Long-term changes in equality and freedom

Long-term changes in other values

Long-term value system changes

Long-term attitude change

Temporal sequence of value and attitude change

Value and attitude changes in various experimental subgroups

Effects of Value change on attitude change

#### 11. LONG-TERM BEHAVIORAL CHANGE

Behavioral responses to NAACP solicitations

Stated preferences and registrations in ethnic core courses

Dropouts and transfers

Summary

#### 12. THE PROCESS OF CHANGE

Effects of contradiction on self-dissatisfaction

Effects of specific self-dissatisfaction on value change

Effects of general self-dissatisfaction and hypocrisy

Affective, cognitive and personality variables that did not affect the change process

Postexperimental interviews concerning the change process

Other experimental investigations of the change process

Post hoc explanation of unexpected findings

## 13. SOME ALTERNATIVE INTERPRETATIONS

Methodological considerations

Statistical considerations

Substantive considerations

## PART FIVE Summary

## 14 IMPLICATIONS FOR THE BEHAVIORAL SCIENCES AND FOR SOCIETY

Methodological implications

Theoretical implications

Practical implications

Practical implications

Ethical implications

A concluding philosophical comment
