Vibrant artwork and a quick, compelling story will entrance little readers of this die-cut novelty book from an award-winning author and illustrator.

With his trademark glowing hues, simple shapes, and clever die-cut designs, the innovative Petr Horáček creates a new animal tale perfect for preschoolers. In RUN, MOUSE, RUN!, the tiny protagonist does just that — over the chair, across the table, and through a shoe. What could this little mouse be running away from?
