Calliope (or Cal as she calls herself) wants nothing more than to stay put, to stop traveling cross-country with her mother, sleeping in a tent, abandoning all belongings whenever they pull up stakes. Eliot misses the happy times he left behind when his father decided to open a camp for kids looking to lose weight and find Jesus. When Cal and Eliot meet by chance, they feel an immediate connection. Together they must face their isolation, the threat of yet another move, and the deepening of Eliot’ s father’ s obsession with money and God. This smart novel, featuring unforgettable characters, colorful backdrops, and even a few recipes, is as funny as it is romantic.
