The poems in this collection were chosen for their appeal to young people, and sorted into the four seasons, so readers can get a taste of growing up in New England year-round. James Hayford's poems include a Vermont way of talking--no wasted

words. His language is whittled into poems satisfying to read aloud and surprising in their power to reveal truth. The collection is steeped in New England but speaks to readers everywhere. Michael McCurdy's stunning engravings and woodcuts add to the poems, amplifying the drama of New England seasons and the beauty of rural life.
