From the author of the Pulitzer Prize-winning history *The Dead Hand* comes the riveting story of a spy who cracked open the Soviet military research establishment and a penetrating portrait of the CIA's Moscow station, an outpost of daring espionage in the last years of the Cold War

While driving out of the American embassy in Moscow on the evening of February 16, 1978, the chief of the CIA's Moscow station heard a knock on his car window. A man on the curb handed him an envelope whose contents stunned U.S. intelligence: details of top-secret Soviet research and developments in military technology that were totally unknown to the United States. In the years that followed, the man, Adolf Tolkachev, an engineer in a Soviet military design bureau, used his high-level access to hand over tens of thousands of pages of technical secrets. His revelations allowed America to reshape its weapons systems to defeat Soviet radar on the ground and in the air, giving the United States near total superiority in the skies over Europe.

One of the most valuable spies to work for the United States in the four decades of global confrontation with the Soviet Union, Tolkachev took enormous personal risks—but so did the Americans. The CIA had long struggled to recruit and run agents in Moscow, and Tolkachev was a singular breakthrough. Using spy cameras and secret codes as well as face-to-face meetings in parks and on street corners, Tolkachev and his handlers succeeded for years in eluding the feared KGB in its own backyard, until the day came when a shocking betrayal put them all at risk.

Drawing on previously secret documents obtained from the CIA and on interviews with participants, David Hoffman has created an unprecedented and poignant portrait of Tolkachev, a man motivated by the depredations of the Soviet state to master the craft of spying against his own country. Stirring, unpredictable, and at times unbearably tense, *The Billion Dollar Spy* is a brilliant feat of reporting that unfolds like an espionage thriller.

ePub电子书好是好，但没有纸本书中的照片和插图

还不快写剧本

跟Dmitri

Polyakov（代号大礼帽，GRU少将）有些微相似，他们都认为自己可以单枪匹马的结束冷战

跟我看的封面不同，但作者是同一人。

应该是同一本书。最有价值间谍-图卡契夫。作者本身是个记者，所以叙事是写实风格，能通过这本书看到当年冷战期间美国间谍技术的进步史。图卡契夫是苏联培养出来的坚定的反苏技术人员。不为钱，不为名，主动联系美领馆人员提供美国军工核心技术，就想苏共垮台。以一己之力令美国空军一直领先并压制苏联10年有余。冷战最关键的10年。最后却被一个CIA自己踢出的人出卖了。值得一看的书
