Hailed by the Wall Street Journal as a "juicy little time bomb of a book", Privately Owned Public Space: The New York City Experience examines for the first time, New York City's 39-year mixed experience with the production of more than 500 plazas, parks, and atriums located on private property yet by law accessible to and usable by

the public.

Until now, comprehensive, systematic knowledge about this vast collection of public spaces has not existed, either for experts or members of the public. To remedy this gap, Harvard University professor Jerold S. Kayden, The New York City Department of City Planning, and The Municipal Art Society of New York have joined forces to research and write *Privately Owned Public Space: The New York City Experience*. Through words, photographs, scaled site plans, maps, and analysis of newly assembled data, they examine history, law, design, and use of the city's privately owned public spaces. Each of the more than 500 spaces is individually discussed to provide far-reaching comparative information about this unique category of public space.

In reading this book, designers, planners, lawyers, and academics will gain greater understanding about the possibilities and problems inherent in the design, management, and enforcement of privately owned public space. Public officials, private owners, and civic group representatives will learn more about their roles in ensuring public access and vitality of such spaces. Individuals will discover where New York City's public spaces are located and what amenities they offer. Everyone will comprehend more completely the contribution that privately owned public space can make toward open and attractive cities in which all individuals have access to a diversity of public places.

评论

纽约实行incentive zoning政策后，公共空间使用环境调查。

翻了一下没看细节，介绍了1961 zoning regulation对后来privately owned public space影响，相关法规、设计规定，剩下的一大部分是对案例的记录和描述（随机看了几个案例好像都是对环境设计的描述，没有涉及到开发过程）。作为reference，以后需要再细看吧…

是非常严谨的research about practice了
