Series Description: From acclaimed artist Ryoji Minagawa comes this new tale of nanomachines, cybernetic assassins, powerful telekinetic opponents, and a secret organization dedicated to bringing forth the next evolution of humankind. Containing all the best elements of sci-fi, secret agents, and conspiracy theory stories, Project Arms is about kids whose arms transform into grotesquely deformed superweapons. Just when Ryo and Hayato learn that the third ARMs kid is Takashi Tomoe, the new transfer student at their school, the mysterious Egrigori organization deploys precocious twins Jeff and Al Bowen to go after them. Using their hi-tech cyborg goons Plus and Minus, the deceptively innocent-looking Bowens plan a no-mercy assault on Ryo's school. The only way the ARMs kids will survive is by working together--but Hayato's a hot-headed lone wolf and Takashi just wants to hide.
