著者:Broyles, Janell

出版者:Rosen Pub Group

出版时间:

装帧:LIB

isbn:9781404207707

Egyptian mythology is arguably the most interesting because the Egyptians left behind a great wealth of evidence of their mythological beliefs in the form of the pyramids. Egyptian mythology was heavily focused on the afterlife. This vibrant volume is resplendent with images that illustrate the text and enhance the learning experience.

Supports English language arts content standards requiring students to identify and analyze the characteristics of various literary forms and genres, such as myths.
