This unique resource provides 190 high-interest, ready-to-use activities to help students master basic math skills—including whole numbers, decimals, fractions, percentages, money concepts, geometry and measurement, charts and graphs, and

pre-algebra— for use with students of varying ability levels. All activities are classroom-tested and presented in a variety of entertaining formats, such as puzzles, crosswords, matching, word/number searches, number substitutions, and more. Plus, many activities include "Quick Access Information" flags providing helpful information on key concepts.
