著者:Kaiser, Petra

出版者:Wardell Pubns Inc

出版时间:2003-7

装帧:Pap

isbn:9780919985384

This is a modern-day primer on the basic skills and techniques of fusing. The book is geared toward the absolute novice and assumes you know little or nothing about the craft. Filled with lots of step-by-step photographs, useful tip sidebars, and complete

project instructions. You will learn terminology used regularly in fusing, as well as all the basic skills that are the building blocks of the art. From tools and material descriptions to glass cutting and shaping, to more complicated procedures such as mould-making and kiln operation, everything is covered. Chapters include topics such as: Warm Glass Processes and Temperatures, Glass Tools And Equipment, Kilns and Controllers, Basic Glass Cutting Techniques, and more. Each new technique is taught via the creation of an actual project, such as a Tangram Puzzle, a Window Ornament, a Night Light, a Set of Soup Bowls or Jewellery Pendants, thereby allowing you to learn a new skill and create an item to wear, display or use in your home.
