出版者:Independent Pub Group

出版时间:2004-9

装帧:Pap

isbn:9781565232440

Dinosaur and woodworking enthusiasts will enjoy this guide to creating 3-D dinosaur models. Woodworkers can choose to build dinosaurs such as Allosaurus, Stegosaurus, and Tyrannosaurus rex out of interlocking pieces. Scroll saw basics and safety

concerns are presented along with step-by-step instructions for completing both a hardwood and a plywood project. Five additional patterns contain cutting templates for each dinosaur bone needed to complete one of the 26 x 40-inch models.
