装帧:HRD

isbn:9780847827428

Here, in his own words, is the first complete look at the career of Albert Hadley, legendary interior designer. A lavishly illustrated celebration of more than half a century of stunning interiors work, the book explores Hadley's personal and professional influences. It traces the path of a career that brought him into contact with all of the major figures in twentieth-century design: First as a student and then a professor at Parsons School of Design, where he became a close friend of Billy Baldwin and was by turn a student, friend, and colleague of Van Day Truex; to his working with Eleanor Brown at McMillen, Inc.; to his influential partnership, Parish Hadley, with the venerable Sister Parish; to his current work as the head of Albert Hadley, Inc. Exploring Hadley's design philosophy and process in great detail, the book covers the rooms that made design history, from the magnificent Rosedown Plantation to the Kennedy White House to Mrs. Vincent Astor's library. Enriched with dozens of new and archival images, as well as Hadley's acclaimed sketches and a catalogue raisonné listing every major article and book written about Hadley's work, *Albert Hadley* is the definitive, exclusive look at one of the most brilliant designers this country has ever seen.
