出版者:Thomson Learning

出版时间:2000-8

装帧:Pap

isbn:9780766816107

This creative book offers numerous early childhood activities for children ages 2-8. It presents hands-on learning tools that are made by adults for children. Projects are made from recycled, household, and inexpensively purchased materials and are high

quality, durable, and have been child tested. The activities included address all developmental domains and levels. Detailed, step-by-step instructions accompany each project. In addition, photographs of each project are included to provide a visual representation of the final product.
