For busy moms, organizing is something that is always on the to-do list but never gets scratched off. In this new book from a trusted organizing expert, readers discover the key to turning a chaotic house into a clutter-free home in no time at all. In order to do this she teaches three simple concepts: consolidate, condense, containerize. Then, once a house is in its prime, just identify and maintain the most important 20% of household tasks and the house will never be a mess again. From chore charts to making cleaning a fun family task, Smart Organizing is packed full of commonsense tips from other moms, websites and books that will inspire the reader to start today, one closet at a time.
