Enables teachers and students to explore performance annd interpretation of the play.

Containing 80 production photographs from stage and film versions of Much Ado about nothing, accompanied by on-screen questions to help stimulate discussion and develop students' ability to compare and contrast. Features include: audio recordings of key moments; tools to annotate the images; the ability to import new images and create storyboards; and a wealth of printable teachers' support material, including editable worksheets which are fully differentiated for use with students aged from 11-19. This CD-ROM is fully networkable for use both on an interactive whiteboard and individual computers.
