The popular Methods of Work column in Fine Woodworking magazine has, for the last 25 years, been the premier forum for woodworkers to share their best tips. This book combines the wisdom of finishing sages such as George Frank with tips from amateurs and professionals to provide a unique resource for anyone who finishes wood. Choosing a finish; Non-toxic finishes; Tools of the trade; Colouring wood; Troubleshooting finishing problems; Repairing damaged and old finishes; The Best Tips from 25 Years of Fine Woodworking magazine: all the ingenious ideas in this book originated in the small workshops of the magazine's readers; Target market: aimed at beginner and intermediate woodworkers; design & technology TEC students. Top author: has edited and illustrated the Methods of Work column since its inception.
