The herringbone stitch is a versatile and unique off-loom bead technique. Popularised as the 'Ndbele Weave' for its use by a South African tribe of the same name, the stitch is characterised by its snakeskin feel and visible chevron pattern. This guide offers a thorough historical and cultural background of the stitch, along with complete instructions for creating beautiful beaded projects. Also provided are techniques for creating flat and tubular herringbone stitch samples and a gallery of inspirational pieces from established artists.
