Deborah Cannarella takes the craft to deeper levels with 26 amazing projects from an eclectic and talented group of contemporary designers plus their personal stories about each creation. Inside you'll find necklaces, bracelets, wall hangings, bags, a journal cover, a photo cube, and even a mobile. Step-by-step instructions and illustrations encourage beaders to adapt, borrow and combine techniques in ways that are most meaningful to them. Among the wide range of techniques offered are those as basic as knotting, seed beading, peyote stitch, brick stitch, lazy stitch, ladder stitch and bead embroidery stitches. More specialized techniques include bead

weaving, beading on screen, French beaded flower making, and painting on glass.
