Knowing how to build a framed panel is an essential skill for any woodworker, and Bill Hylton's Frame & Panel Magic finally provides the definitive guide to this important type of joinery. Popular author Hylton gives readers: Techniques for creating panels

that draw the eye, including raised, flat, veneered, curved-edge and glazed panels; Illustrated step-by-step directions for traditional joinery as well as the quick and easy router-cut cope-and-stick joinery; Unintimidating instructions for using panels in cabinet doors, casework, panelling, and door construction In addition, readers receive detailed lists of the equipment they need, making this guide the goto resource all woodworkers must have.
