To keep up with the fast pace of dinosaur research, this popular volume has been fully updated with stunning new illustrations. This third edition features thirty-eight dinosaurs including T.Rex and other favourites - plus twelve of the most recent exciting

and important of the discoveries of the past decade, such as Guanlong, a 10 metre-long feathered meat eater from China; Falcarius, a fuzzy plant eater from Utah; and Agustinia, a plant eater with a series of strange plates down its back. Throughout the book, new illustrations update the science of the previous edition giving youngster's a strange and exciting journey back in time to the amazing age of the dinosaurs.
