装帧:SAL

isbn:9781567660906

The highest-level Wonder Books encourage advanced students to extend their skills, by instilling the confidence that they can read to learn subjects of their own choosing. Level Three Readers feature more difficult vocabulary and longer page lengths, with

three or four sentences per page. Topics are selected to meet higher comprehension abilities, including U.S. history and values. Children will also enjoy learning to use the complete glossary, index, maps, and references for writing reports.
