Students learn about important subjects by relating them to events and things that occur in their everyday lives. A wealth of interesting activities provide a detailed look into each subject. Easy-to-use activities can be completed individually at school or at

home, though a few hands-on experiments require group work and data sharing. A great supplement to any existing curriculum When students see the important role math plays in their everyday lives, it becomes more interesting and meaningful. A variety of activities enable all students to find a particular math concept or activity at which they can succeed
