出版者:Picture Window Books

出版时间:2004-8-31

装帧:SAL

isbn:9781404806702

This new series by renowned dinosaurs author Dougal Dixon looks at dinosaurs and the different places they lived more than 65 million years ago. The beautifully illustrated books feature some of the biggest, fiercest, fastest, and brainiest dinosaurs ever to roam the world. Mountain dinosaurs could walk on rocky ledges or hide underneath them. Some of today's animals use the same survival skills. Learn more about prehistoric life in valleys and on hills.
