Be careful what you wish for Fourteen-year-old Morgan Yates has just moved into a bigger house in a new neighborhood. But Morgan misses her old friends and wishes things could go back to the way they were before. And before she knows it, Gretta--her fairy-godmother-in-training--is back and flightier than ever; and this time she's working on her masterpiece, "A Fairy's Guide to Understanding Humans." Then Gretta decides that the best way to understand humans is to become one. After all, what could possibly go wrong? This sequel to *A Mid-Semester Night's Dream* is even funnier and more moving and magical.
