出版者:Dover Pubns

出版时间:2005-10

装帧:Pap

isbn:9780486445922

Tidal pools are miniature sea worlds, teeming with ever-changing life. This book offers close-up views of the amazing variety of the tidal zone's inhabitants and the ongoing drama of their struggles to adapt and survive. Snails, clams, and sea worms populate these pages, alongside crabs that scuttle across the ocean floor. 32 drawings.
