isbn:9780739866108

The imagination, skill, and beliefs of a culture can all be found ingrained in the art it creates. By matching engaging text with brilliant photos, this new series illustrates why this art was created in the first place, what it was used for, and what it represented to those that made it. Feature Boxes delve even deeper into the meaning of specific topics such as tea ceremonies in Japan. Fine art, architecture, cookware, and clothing are just some of the areas explored.
