If there is one element that singles out John Howey Associates' unique work, it would be the dramatic geometries against the immeasurable environment and its natural

elements - earth, sky and water. The firm has received more than 40 design awards for its innovative and bold approach. The projects in this monograph are diverse, and include office buildings, health facilities, hotels, classrooms and studio facilities, single family residences, multi-family residences, dormitories, schools, historic preservation, museums, galleries, showrooms, interior design and planning projects, among others.
