I find it highly engaging and very readable. Tom Schaller has amassed a wealth of material and references to engage the reader with aspects from history, perception and psychology, fine arts painting, architectural illustration, and on and on. This is a

very inspirational work.its a winner! --Harold Linton. Assistant Dean, College of Architecture and Design, Lawrence Technological University If erudition, originality, energy and output could be claimed to constitute heat, then Tom Schaller is the hottest perspectivist of the nineties. --Paul Stevenson Oles.
