isbn:9781561584703

When you are building your own fitted kitchen cabinets, you are not just saving money. You also improve upon the materials & construction used in factory-made cabinets, and get exactly the sizes you want. And with the techniques that the author demonstrates and explains in this book, you can incorporate custom details in your cabinets to make them even more distinctive, e.g: arched doors, custom cornice

treatments, oversize pantry cabinets and solid wood end panels. - Designing custom cabinetry to suit your space and budget - - Building drawers and doors in a variety of different styles - - Tools - Understanding wood - Design - Face-frame construction - Doors - - Panels - Building drawers - Base cabinets - Wall cabinets -Other cabinets - - Finishing - Hardware - Accessories - Installation - Countertops - * Taunton's Build Like A Pro series: expert advice from start to finish. * Any serious do-it-yourselfer can make his/her own fitted kitchen armed with the know-how in this fully illustrated book.
