A child's room is a place of play, work and rest, for this reason, it should consist of a space that is comfortable, and endowed with plenty of storage space. This edition offers a multitude of suggestions and tips on how to achieve all these characteristics when designing a child's room. Throughout these 192 pages, stylists and interior designers from around the world display their designs, offering imaginative, colourful

and practical solutions that taken on classical, urban and contemporary styles.
