White can work in every home. Classic, timeless, easily adapted to changing fashions, and excellent for maximizing light, it is far from bland or boring. Authors Atlanta Bartlett and Karena Callen begin by showing you how to use white to create a multitude of environments--from warm and homey through to cool and calm--with different textures and shades. Next, Creating a Mood with White describes five themes,

Classic, Romantic, Beach, Country, and Modern, and demonstrates how to design a successful white interior. Finally, Living with White illustrates, room by room, how to make white right for you. From bedrooms to bathrooms, you'll see that white is the most versatile colour for contemporary living. *Explore these inspriational interiors and easy-to-achieve ideas, and transform your one with white. *With elegant photography by Polly Wreford.
