Here's an exciting new series of small books packed with big ideas. Small Books, with text in English and in Spanish, are perfect for interior designers, architects, home owners—anyone with an interest in creating or improving a residential or public space. Handy, portable, focused titles offer beautiful full-color photographs of exciting design solutions, plus an overall emphasis on considering the available space from every angle in order to create beautiful, functional plans. And because ten books in the series

are available immediately, there's no waiting for individual titles to come out. The incredibly low cover price means professionals and everyone else can buy 'em, save 'em, collect 'em all!
