isbn:9789516827752

This book presents eight single-family houses built by Aalto in Finland, Estonia, and France from the 1920s to the end of the 1960s. Markku Lahti, director of the Alvar Aalto Foundation, describes the fascinating history of the selected houses, the people for

whom they were built, and how Aalto adapted his own design ideals to the needs of his clients.
