Long known as the world's factory, China is the largest manufacturing economy ever

seen, accounting for more than 10% of global exports. China is also, of course, home to the largest workforce on the planet, the crucial element behind its staggering economic success. But who are China's workers who keep the machine running, and how is the labor process changing under economic reform?

Pun Ngai, a leading expert in factory labor in China, charts the rise of China as a world workshop and the emergence of a new labor force in the context of the post-socialist transformations of the last three decades. The book analyzes the role of the state and transnational interests in creating a new migrant workforce deprived of many rights and social protection. As China increases its output of high-value, high-tech products, particularly for its own growing domestic market of middle-class consumers, workers are increasingly voicing their discontent through strikes and protest, creating new challenges for the Party-State and the global division of labor.

Blending theory, politics, and real-world examples, this book will be an invaluable guide for upper-level students and non-specialists interested in China's economy and Chinese politics and society.

作者介绍:

Pun Ngai is Associate Professor and Director of the China Research and Development Network at Hong Kong Polytechnic University

目录: 1. China and its Labor in the Neoliberal World 1
2. Capital Meets State: Re-emergence of the Labor Market and Changing Labor Relations 18
3. Building China: Struggle of Construction Workers 41

评论

论文拼起来的，写作和理论探讨远不如博士论文有张力

开头是复习契丹新自由主义改革史，家庭联产承包责任制改革分析等等，后来也提及和分析了很多比较新鲜的东西，比如建筑业里的分包制(subcontractor system)，户籍制，宿舍制(dormitory regime system)，富士康的工厂生活和alliance between capital and state。最后是工人的微观政治(在宿舍里开会)与斗争(闹)的描写和评价。挺不错，适合对契丹新自由主义改革和新工人主体认识比较模糊的壬(比如我)。其中也提到了看似原子化的新工人(进城务工的人)的阶级意识是怎样在微观政治中逐步形成的，这点刚好可以和千叶真名斥责民工的说法对照着看。
