装帧:Hardcover

isbn:9781864701494

Another stunning collection of residential beach architecture awaits between the covers of "Beach Houses Down Under" - the requisite stunning ocean views, dunes, seascapes, seaside flora, and salty air are almost palpable! Stephen Crafti, author of the previous two "Beach Houses" volumes, has again selected some superb architect-designed homes, both full-time residences and holiday homes, in a wide variety of beach locations. Architectural adaptations to the often harsh beachside environment are explained and illustrated, with gorgeous photos, plans and descriptive text. A must for the beach-lover's collection.
