Duchlan Castle is a gloomy, forbidding place in the Scottish Highlands. Late one night

the body of Mary Gregor, sister of the laird of Duchlan, is found in the castle. She has been stabbed to death in her bedroom - but the room is locked from within and the windows are barred. The only tiny clue to the culprit is a silver fish's scale, left on the floor next to Mary's body. Inspector Dundas is dispatched to Duchlan to investigate the case. The Gregor family and their servants are quick - perhaps too quick - to explain that Mary was a kind and charitable woman. Dundas uncovers a more complex truth, and the cruel character of the dead woman continues to pervade the house after her death. Soon further deaths, equally impossible, occur, and the atmosphere grows ever darker. Superstitious locals believe that fish creatures from the nearby waters are responsible; but luckily for Inspector Dundas, the gifted amateur sleuth Eustace Hailey is on the scene, and unravels a more logical solution to this most fiendish of plots. Anthony Wynne wrote some of the best locked-room mysteries from the golden age of British crime fiction. This cunningly plotted novel - one of Wynne's finest - has never been reprinted since 1931, and is long overdue for rediscovery.

作者介绍:

安东尼·韦恩是罗伯特·麦克奈尔·威尔逊（1882-1963）的笔名。他出生于苏格兰，本职是一名医生。韦恩创作了二十七部以尤斯塔斯·海利医生为主角的侦探小说。尽管今天已经几乎被人遗忘，但是当时他和他的海利医生探案故事有一定的地位，而且大部分作品都是围绕不可能犯罪展开的。

密室

评论

密室杀人：妹子在门窗紧锁的房间内被刺杀。前来调查的警察也接二连三以同样方式遇害。核心解答就那个年代而言是完全原创，然后惨遭卡尔泄底……叙述有点闷不过出人意料的这次作者竟然没有使用神奇毒药

故事冗长，过程沉闷，解答平平，看在死人很多的面上给个三星吧。简介【<https://www.douban.com/note/626995794/>】

三星不能再多 中间情节过于冗长 气氛也没有通过传说进行很好渲染 最终解答没有亮点 如果不考虑年代的话 差不多两星~

最后的推理切入点太不起眼了，手法还可以，但动机的脑洞有点感人,中间一大部分既枯燥又和解答没太多关系，如果能压缩个七八十页让节奏紧凑起来会明显改善阅读体验。
