isbn:9781783982028

If you are a data scientist or R developer who wants to explore and optimize your use of R's advanced features and tools, this is the book for you. A basic knowledge of R is required, along with an understanding of database logic.

## 作者介绍:

Gergely Daróczi is an enthusiast R package developer, founder/CTO of an R-based web application, Ph.D. candidate in Sociology, and father of two. Besides teaching Statistics at a number of Hungarian universities and doing data analysis projects for several years, he has around 10 years of experience in data management and analysis tasks within the R programming environment. Gergely is also the co-author of Introduction to R for Quantitative Finance and Mastering R for Quantitative Finance and a number of journal articles on social science and reporting topics.
