Her first book introduced Matilda Black and Edmund Reynolds, whose unique abilities and challenges united them-and brought them to a wonderful old "haunted house" that sheltered Edmund and his friends when they were young. Now, that House calls them to reach out to those friends-and reunite them to defeat a powerful, dangerous magic.

"Her ingenious plotting explores memory, the nature of recollection and personal growth." (Kirkus Reviews)

"A lasting addition to the urban fantasy canon." (Booklist)

"Chronicles the destinies of young men and women as they try to come to terms with the magic that flows through the world around them...sensuous prose and gentle humor add a graceful charm to this fantasy adventure." (Library Journal)
