Meet Elodie Harrington, college student and medical anomaly. From chicken pox to tuberculosis, Elodie suffers such a frequent barrage of illnesses that she moves into the Brown University infirmary. When charismatic Chess Hunter enters the infirmary with two smashed knees, he and Elodie begin an intense affair, but Chess is only a visitor to Elodie's perpetual state of medical siege. As he heals, he moves back to his former life. Elodie heads in the other direction and begins to see a ghost. When Professor Mark Kirschling, M.D., gets wind of Elodie, he's convinced he can make his professional mark by cracking her case but he's entirely unprepared for what he's about to encounter. Andrea Seigel has found a wry, ingenious way to explore the contrast between the first frisson of mortality and a life lived in defiance of it.
