The Shadowhunters of Los Angeles star in the first novel in Cassandra Clare's newest series, *The Dark Artifices*, a sequel to the internationally bestselling *Mortal Instruments* series. *Lady Midnight* is a Shadowhunters novel.

It's been five years since the events of *City of Heavenly Fire* that brought the Shadowhunters to the brink of oblivion. Emma Carstairs is no longer a child in mourning, but a young woman bent on discovering what killed her parents and avenging her losses.

Together with her parabatai Julian Blackthorn, Emma must learn to trust her head and her heart as she investigates a demonic plot that stretches across Los Angeles, from the Sunset Strip to the enchanted sea that pounds the beaches of Santa Monica. If only her heart didn't lead her in treacherous directions...

Making things even more complicated, Julian's brother Mark—who was captured by the faeries five years ago—has been returned as a bargaining chip. The faeries are desperate to find out who is murdering their kind—and they need the Shadowhunters' help to do it. But time works differently in faerie, so Mark has barely aged and doesn't recognize his family. Can he ever truly return to them? Will the faeries really allow it?

Glitz, glammers, and Shadowhunters abound in this heartrending opening to Cassandra Clare's *Dark Artifices* series.

可以可以！读到Tessa和Jem出来的时候我尤其想哭。想起Will了！可惜他不在了。还有Julian真的是啥都会啊！Emma嫁给他！！这样以后孩子照顾什么的都不愁了。家里有主夫嘛！！

一本看完 这一家子小朋友的名字我还是对不上号啊、 (ノ ▽ ノ) ㄟ

I couldn't believe that when Malcom tried to kill Tavy , Emma was still spending time memorizing other things , at that urgent moment how can she memorised that she and Julian sleep on the beach??? it's so ridiculous.

是目前shadowhunter系列最好看的一本了

书评

Ah, yes, Lady Midnight. What a wonderful start to a series that is almost certain to be a favourite of mine. Back when I first read the first of The Mortal Instruments - City of Bones, I will admit I was not that drawn into it(though I was reading it dig...
