The refinement and sophistication of entertainment and sporting venues is readily

apparent. The latest design innovations and technology are incorporated to meet the publics demand for the very best in sporting arenas and leisure facilities. Additionally, both amateur and professional athletes constantly search for the ultimate arena or facility in which to perform. With beautifully-reproduced, full-color photographs and accompanying expert editorial commentary from Roger Yee, Sports & Recreational Facilities showcases 72 projects from some of the best design firms. Featured are a wide range of facilities that illustrate the numerous sporting activities that absorb so many of our leisure hours: athletic stadiums and arenas, tennis courts/golf clubs and ancillary clubhouses, water sports, race tracks of various kinds. . . and many, many more. This outstanding collection of contemporary architecture is a must-read for anyone involved in the design and construction of sports and recreational facilities. Additionally, a special section has been included featuring the winners of the Outstanding Sports Facilities Awards program sponsored by NIRSA (National Intramural-Recreational Sports Association). 192 pages 9" x 12" 400+ color photos / hardbound
