IMAGES' first edition of this world-wide pictorial directory of architects and their work proved to be a huge success. This updated and expanded 2005 edition includes many new entries, and current contact details of the world's best-known firms. An invaluable resource for architects, designers, developers, educators, students and people with a general interest in architecture. Presented again as a two-volume, boxed set, 1000 Architects 2 will continue as the architectural world's premier resource.
