Sorcery is all around us. From a child's struggles to control magical powers for the first time, to the epic clashes of forces of good and evil on a titanic scale, here are more than twenty of the finest in contemporary and classic wizardry tales. Ranging from Michael Moorcock's "Master of Chaos," the story of a knight traveling to a castle on the edge of the world to face the ultimate sorcerer, to Peter Crowther's "The Eternal Altercation," in which a man is forced into the eternal battle between hope and despair on a sorcerer-controlled train, The Mammoth Book of Sorcerers' Tales also includes stories from Ursula Le Guin, Steve Rasnic Tem, James Bibby, Robert Weinberg, A. C. Benson, Michael Kurland, and Louise Cooper.
