出版时间:1991-12

装帧:Paperback

isbn:9780415904339

Nationalisms and Sexualities departs from social scientific paradigms that treat nation and sexuality as discrete and autonomous entities. Its contributors respond instead to issues that redefine what is presently considered "the political:" the formation of sexual, gendered, racial, and/or class identities and its relation to the formation of national identities, and vice-versa; and the ways colonialism and postcolonialism, as well as technologies of representation, have contributed to the consolidations of national and sexual identities.
