About the Author

John Paxton is a programmer, trainer, author and presenter who lives in his native New Jersey. Studying history at Johns Hopkins University, he discovered that he spent more time in the computer lab than at the document archives. Since then, his career has oscillated between programming and training, working with many of the various languages used in web development over the last 15 years. He now concentrates on JavaScript and Java, with the occasional nostalgic visits to Perl and XML. When not

exploring a new JavaScript library, writing workbooks or hacking code, he enjoys drinking beer, watching movies, reading books, and traveling the world. Ruminations, fulminations, and recitations of peregrinations can be found in short form on Twitter (@paxtonjohn) and long form at speedingplanet.com. John Resig is a programmer and entrepreneur who's been developing web applications for over eight years. Having primarily focused on back-end development for most of that time using Perl and MySQL, John changed his focus toward implementing usable web front ends. He holds a degree in computer science from Rochester Institute of Technology in New York, and has published several papers on data mining instant messaging networks. When he's not programming, he enjoys watching movies, writing in his blog, www.ejohn.org, and spending time with his girlfriend.

RussFerguson is a freelance developer and instructor in the New York City area. His interest in computers goes back to Atari Basic, CompuServe and BBS systems in the mid 1980s. For over 10 years he has been fortunate to teach at Pratt Institute, where subjects have been as diverse as the student body. Working in New York has given him the opportunity to work with a diverse group of companies whose projects ranged from, developing real-time chat/video applications for start-ups to developing and managing content management systems for established Media and Advertising agencies like MTV and DC Comics.

书评

如果你的JavaScript已经入门，希望深入学习一下各式各样的library，那么这本书会非常之有意义，他介绍了很多很经典的轻量级library，让你理解以下几个问题：

1.能够怎么做，例如DOM默认提供哪些方法给你操作，prototype提供给你什么样的扩展潜力
2.应该怎么做，例如如何封装自...

学习JavaScript不久，很多JavaScript的核心概念都不怎么了解，对JavaScript的认知基本都是从W3C上面学到的，多是一些基本的语法。然后从图书馆借来JavaScript基础来看了下，很多内容都是懂得，于是自以为JavaScript的内容大致都已经了解了，只待应用了。看了这本...

半年前，当我对JavaScript还停留在只认识这几个字母的时候（again, XD），我在寻找学习JavaScript的学习途经，jQuery无意闯入我的眼帘，我惊叹于它的小巧和易理解性，在我还不懂JavaScript基本语法的时候，我已经能用它做很多对我来说是不可思议的事情。由此也认识了它的作者...

这本书英文名是Pro JavaScript Techniques。是jQuery之父John Resig所写的。书中的内容确实比较高级些，并非如犀牛书般的基础参考而已。

这本书看下来的感觉就是：果然是JQ之父写的！

为什么这样说呢，因为这本书可以说是JQ的源码解读。这里的很多篇幅都可以看做JQ的一些方法...

所谓文笔，并不是前阵子韩寒评论巴金冰心等人的“文笔”，只是说作者在讲解知识，分析问题的时候，不够流畅清晰。

当然，这是相对于《ppk谈javascript》这本书而言的。我是读完ppk的书再买了这一本，因为前者说是初级的，后者是高级的。但是感觉，读完ppk的书，收获更多些...

这本书的知识范围广泛，从这本书知道了很多之前不知道的事情，如JS中的编码规范，单元测试，打包发布等。值得一看。

如果你想深入学习JS，而不是遇到问题就去搜别人的代码；如果你想亲自开发一个JS框架，而不采用拿来主义。这本由jQuery作者John Resig写的书一定适合你。
