Anne Le Clair, a successful, young attorney, has managed to remain free from her family's gothic past—until now. When she inherits her murdered Aunt's antique necklace however, she finds no escape from its secrets. Under the Stone Paw is a thrill ride from the upper crust of New York society to the forbidden tunnels underneath the Sphinx, from a time before Jesus and Mary Magdalene sought to free humanity to our own time when a shadowy consortium of powerful individuals threaten to control it.
