"As always, there are facts to be learned and loads of puns and playful language to entertain readers. This is another winner, "for real and absolute positive." — SCHOOL

LIBRARY JOURNAL

She took her own temperature. With the fancy thermometer that beeped. It was not normal. It was not 98.6. Judy's temperature was 188.8! Judy's temperature was 00.0! Judy's temperature was beep-beep-beep-beep-beep. She, Judy Moody, had the temperature of an outer-space alien!

Judy Moody has a mood for every occasion, and now, she is in a medical mood! It's no secret that Judy wants to be like Elizabeth Blackwell, first woman doctor, when she grows up. So when Class 3T starts to study the Amazing Human Body, Judy can hardly wait to begin her better-than-best-ever third-grade projects: show-and-tell with something way rarer than a scab, a real-live ooey-gooney operation, and a cloning experiment that may create double trouble for Judy and her friends. RARE!
