isbn:9780792259350

This award-winning book capturing the glittering light show of the constellations is now available in paperback.

Take an illuminating ride through the starry night sky with National Geographic's Zoo in the Sky! Little Bear and the Great Bear in the Northern Sky; the scaly dragon winding his long tail; the Great Dog chasing the Hare in the Southern Sky; all are beautifully rendered in Christina Balit's vibrant art, studded with shiny stars, which perfectly illustrates Jacqueline Mitton's rich text.

Awards include: Parent's Guide to Children's Media Award Parent Council Award
REVIEW(S): "A visually dynamic introduction to the animal constellations." — Booklist

"Mitton offers poetic, abbreviated legends of the nighttime sky, while Balit's paintings,

highlighted by shimmering silver stars, give visual meaning to the text." — Kirkus Reviews

"This is an attractive introduction to astronomy... [T]he simple poetic descriptions will capture the attention of preschoolers and early elementary-age children alike. A brief explanation of stars and constellations rounds out this lovely and unusual offering." — School Library Journal
