isbn:9780619267230

Completely revised and updated, Fundamentals of Java: Comprehensive Course, Third Edition covers all of the AP requirements for Computer Science Exams A and AB. By

taking a multilevel approach to teaching Java, this text is suitable for a wide range of students, from beginners to those ready for advanced data structures. Since it is non-software specific, it can be used with any Java program compiler, including Borland, Sun Microsystems, Symantec and others.
